

Integration Laws

(Continued from Page 1)

guson contrary to this finding is rejected." In these words, the Supreme Court tossed aside all law as based on the Constitution, the Declaration of Independence, States Rights and all other fundamental principles upon which this Nation's growth and welfare has been based — and substituted for these a number of so-called treatises on sociology and psychology; and then had the arrogance to publish the fact as the authority for the segregation decision!

In effect, we have a new Chief Justice of the Supreme Court, and his name is Gunnar Myrdal; for it was the thesis presented in his book "An American Dilemma" which — admittedly — determined the decision on segregation. Since this man — who wasn't even a citizen of the United States, but a visitor from Europe — has, almost single-handedly caused a total revolution in American Government; perhaps we should know more of Gunnar Myrdal. Charles Wallace Collins, for 40 years a member of the Bar of the Supreme Court of the United States, former Law Librarian

HERBERT LEHMAN

The above Zionist leader through tremendous financial holdings controls the "leaders" of the Nation.

of Congress and Librarian of the Supreme Court of the United States; tells us:

"... the Carnegie Corporation of New York had always had a deep interest in Negro Welfare and it decided to give the whole race relations in the South a 'new look.' In 1937 the Corporation brought over from Sweden Dr. Gunnar Myrdal, professor of the University of Stockholm. He was described by the Corporation as a 'social economist' and an economic adviser to the Swedish government and member of the Swedish Senate. He called himself a 'social engineer.' He was a socialist and had no knowledge of the Negro question in the United States. He was asked to make a thorough investigation of race relations in this country; was given an ample staff and funds for that purpose. . . After six years he came up with a two volume work of 1500 pages: 'An American Dilemma' (Harpers, 1944.) His solution was racial integration because he held there is no such thing as race. . . It is a Carnegie Corporation project. Between seventy-five and one hundred anti-Southern writers — many of them Negroes such as Ralph Bunche and Walter White — spent about six years working up this propaganda. . ."

Congressman Henderson L. Lanham of Georgia added this interesting footnote in the Congressional Record, June 17, 1954: "By some coincidence, both Myrdal and (Alger) Hiss found themselves in charge of the key to Carnegie's safety deposit box. Carnegie paid Hiss \$25,000 per year and paid Myrdal \$148,000 for 1,483 pages of psychological knowledge and scientific thought control." Congressman Lanham

also pointed out that leading sociologists in the country will testify that Social Science is largely a misnomer and that many who profess otherwise are mere imposters and quacks. Dr. E. H. Dobbs, a nationally famous sociologist now on the faculty of the University of Pennsylvania, is trying manfully to bring order out of chaos in that field; he points out in recent books and articles that the field is overrun with imposters, quacks, leftists and Marxist disseminators of anti-American doctrine. (See Colliers' Encyclopedia Yearbook, 1953.) We leave it to the individual Closer-Upper to choose in which of Dr. Dobbs' categories Gunnar Myrdal belongs. But the Supreme Court itself chose Myrdal as its chief authority in the segregation decision!

That the decision on segregation is the greatest hoax ever perpetrated on the people of the United States seems a reasonable assumption. But that's only a part of the story. For, this Supreme Law of the Land has been determined by an alien Socialist who was given a lavish Carnegie grant to write a modern "Book of Job" — and this, in itself, sets a new precedent in American jurisprudence which is a milestone in the history of our Nation; a precedent that can be used over and over again for whatever purpose desired by the Marxists in control of our Administration until they are deposed by Nationalists who will demand that native Americans — at least — determine the laws under which we are to live!

And one may rightfully ask why newspapers and other avenues of information in this country failed to make these facts known to voters. Have we become so imbued with treason that we are no longer able to recognize it when we see it, that it no longer is news, that we are expected to take it in stride without fighting back?

This Supreme Court hoax concerning school integration is almost equalled by the fraud and hoax perpetrated with regard to integration in our Armed Forces. All the propaganda in the controlled press has glorified Negroes as magnificent fighters who have contributed unselfishly and courageously to the defense of America — and therefore deserve to share bunk and bath with the white soldier. We cannot contribute toward the welfare of either Negro or White by shrinking from facts. Because you should know the TRUTH, we present the following facts, a condensation of material first published by the American Nationalist, P.O. Box 301, Inglewood, California:

World War One. Approximately 350,000 Negroes served, about half of whom served overseas, (Journal of American History, page 22, Association for the Study of Negro Life and History, Wash.) The 92nd and 93rd Combat Divisions were formed and about 40,000 Negro troops were exposed to combat conditions. Colonel Alan J. Greer, in a letter to Senator Mac Kellar (inserted in Congressional Record) wrote, in part: "... we went to the Argonne and in the offensive starting on September 26, had one regiment in the line attached to the 38th French Corps. They failed there in their missions, laid down and sneaked to the rear, until they were withdrawn. Thirty of the Negro officers of this regiment were reported either for cowardice or failure to prevent their men from retreating and this against very little opposition. The French and our white field officers did all that could possibly have been done, but the troops were impossible." The total number of Negroes who died in action in World War I was certainly less than 900. (Dept. of the Army.) By way of comparison; 50,510 white American troops died in combat, or from combat wounds. In other words, Negro troops constituted over 8% of our forces; but suffered less than 2% of the casualties.

World War Two showed many similar statistics (Report of Activities, AGF, January 10, 1946. Report still incomplete and statistics subject to later revision.) 701,178 Negroes served in World War Two and less than 500 were killed in action (over 200,000 white Americans died in battle.) At the end of World War I, General C. C. Ballou, war-time commander of the 92nd Negro Division submitted an official report in which he

wrote, "We forgot that the average negro is a rank coward in the dark, and I subsequently realized in full how worthless this trait renders him in service." The record shows that Negroes are hopelessly inadequate to meet the technological demands of atomic age warfare.

The integration program for the army was signed surreptitiously by Harry Truman in 1948 and brought into being by Anna Rosenberg, named Assistant Secretary of Defense through the insistence of Dwight D. Eisenhower and Bernard M. Baruch; this same Anna has never been cleared of her alleged participation in Communist Party activities.

Do Negro characteristics "Rub Off" on the White Boys? Kept strictly under wraps is the fact that integration has created chaos in the Army. U.S. News & World Report gave an indication of this fact in recently published statistics: Army re-enlistment rate in 1949 was over 40% — now only 11%. Navy and Air Force re-enlistments are only about half the 1949 level.

The "One rotten apple in the barrel" maxim might apply to public schools if integration is enforced throughout the Nation. Because Closer-Uppers are entitled to know

CHANNING TOBIAS

Asst. Treasurer of N. A. A. C. P., with 50 Communist listings with the House Un-American Activities Committee.

the truth we quote the following information from the Uniform Crime Reports for the United States and its Possessions, "Issued by the Federal Bureau of Investigation, The United States Department of Justice, Vol. 23, No. 2, Annual Bulletin for 1952, Published by the Government Printing Office." This is a report of all persons arrested for crimes in the 232 cities reporting to the F.B.I. for the year 1952. Although latest official census reports show only 10% of the population are Negroes, yet of the total population reported in this official tabulation:

- 64% arrested for murder were negroes.
- 44% arrested for robbery were negroes.
- 64% arrested for aggravated assault were negroes.
- 40% arrested for other assaults were negroes.
- 30% arrested for burglary, breaking and entering were negroes.
- 32% arrested for larceny theft were negroes.
- 19% arrested for auto theft were negroes.
- 17% arrested for embezzlement and fraud were negroes.
- 34% arrested for buying and receiving stolen property were negroes.
- 14% arrested for forgery and counterfeiting were negroes.
- 38% arrested for rape were negroes.
- 29% arrested for prostitution and commercial vice were negroes.
- 24% arrested for other sex offenses were negroes.
- 47% arrested for violation of the Narcotic Drug Laws were negroes.
- 59% arrested for carrying and possessing weapons were negroes.
- 29% arrested for offenses against family
